S i r,

I beg to submit enclosed a memorial addressed to Gov. largely signed by the literate section of the Indian Protest Christian population of this district expressing their grave c at the attitude adopted by the present German Missionaries in ing to sell all the landed properties of the Mission and Church These properties have been the main-stay of the India Mission goi by the name and style Basel Evangelical Mission and the Churches connected with it, now for nearly a hundred years. Act No.IX of 1921 which was passed to validate certain indentures transferring properties formerly held by certain Enemy Mission in Trustees and the incorporation of such Trustees and for other purposes which h not been since revoked lays down in Sec.2 (2)

> "For the purposes of the appointment of the successors of the persons named in the fourth column of the schedule in their office, as such Trustees, the provision of the Indian Trusts Act 1882, shall be deemed to apply"

It is therefore evident and Government will be pleas to concede that these properties are to be administered by the Ge Missionaries to whom they have been now transferred by the Natid Missional Council of India, (the said German Missionaries having b permitted to come and work here in India, by the Government at th earnest prayer of the Indian Protestant Christians of the distric under the provisions of the Indian Trusts Act, which certainly imposes certain restrictions on the Trustees and confers certai rights on the beneficiaries.

The communication issued by the Chairman Basel Evange Mission dated 29-8-1932 a true copy of which is hereunto enclosed makes it abundantly clear that the Missionaries are proposing to s these lands to balance their budgets. Government will be pleased note that the idea of balancing budgets by selling capital assets is novel by itself and probably unheard of.

p.19 infra

The Memorialists refuse to believe that there is any financial difficulty at the fountain source of the Mission as an unnecessarily large number of German Missionaries are being drifte every quarter as it were, from Germany and three more are on their way to this district now. The Indian Protestant Christians, look upon the Government at this juncture for necessary protection and safe guarding of their interests as the present state of affairs b in Germany and in this Country do not forbode a happy future for th German Missionaries in India.

It will be recollected that in 1914 when the German Missionaries had to be interned and finally repatriated owing to the exegencies of war, they left the Indian Protestant Christian congregation unprotected to take care of themselves and made their own arrangements to protect their own interests with their Swiss br ern then left behind here.

In these circumstances, Memorialists most fervently hope Government will be pleased to realise the grave situation and

and the great anxiety felt by the Indian Protestant Christian subjects of His Majesty in this part of the Presidency and adopt such measures as the peculiar circumstances of the case now laid before the Government may demand at their hands, in just and true vindication of the grievances of the Memorialists

M | Respectfully soliciting the favour of an acknowledgment.

I beg to remain,

S i r,

Your most obedient servant.

Mangalore, 1st September 1932.

To

The Chief Secretary,

THE GOVERNMENT OF MADRAS,

Fort St. George, MADRAS.

The memorial submitted by the undersigned on behalf of the Indian Protestant Christians of South Kanara District in the Presidency of Madras.

Sir,

We on behalf of ourselves, and the Indian Protestant Christians of this district, who share our views, beg most respectfully to approach the Government with this memorial, conveying the dismal situation that is being created by the German Missionaries of the Basel Evangelical Mission, who at present are in charge of the Mission and the Churches and as such necessarily control the landed properties belonging to the Mission.

2. The Mission and the Church here own large properties, consisting of house properties and rice yielding fields. These were purchased out of the contributions raised either by or for the Indian Christians and in some cases, vast tracts were assigned to the Mission under Dharkhast rules, for the use and benefit of the Indian Christian converts. In fact the large area—now forming the Head quarters of the Mission and the stronghold of the Indian Protestant Christian community known as "Balmatta" was gifted to the Mission by Collector Blair, probably the last Collector under the Hon'ble The East India Company for the use and benefit of Indian Christian converts.

3. The documents, pattas and other title deeds were however allowed to be written in the name of the German Missionaries then in Power and have stood unaltered since then. In fact many of them stand in the personal names of the former German Missionaries till now.

4. During the Great War, when International relationships remained strained, Government felt the need of interning the German Missionaries and subsequently of sending them back, Government in recognition of the fact that these properties were really intended for the use and the benefit of the Indian Christian subjects of the Government, were pleased not to confiscate them outright, but to place them under the control of a Trust known as the Missions Trust of Southern India and allowed the profits of these properties to be utilised for the use and benefit of the Church and the Mission.

5. At the cessation of hostilities and when peace was declared Indian Protestant Christians in South Kanara made a sustained and successful effort with the aid of our generous Government to secure the return of the German Missionaries,

little thinking that these Missionaries will come back without a change of heart to treat us in the fashion they are doing now, determined to dislocate the Churches, impoverish their revenues or otherwise render the Churches disunited, feeble and helpless.

6. It must be remembered that large sums of money are collected in Germany and abroad in the name and for the use of the Indian Protestant Christian subjects of His Majesty; and this amount which is given for our use and collected at the risk of our personal and national honour are mostly spent for the use and benefit of the missionaries themselves whose number get swelled almost every quarter.

7. The German Missionaries have been in very many cases extremely extravagant to the great detriment of the Indian Churches. To quote a single instance they maintain Theological Seminary for 8 students at an annual cost of about Rs. 13,000/— with 7 teachers both Indian and German. A couple of years ago these students used to be trained in the Union Seminary at Tumkur and if the same course had been adopted the whole cost could have been reduced to about Rs. 2500/— per annum and a saving of over Rs. 11,000/—effected; which amount could have been released with advantage for so many useful purposes. The Union Mission Theological Seminary at Tumkur has a reputation of one of the best institutions of the kind and there is and can be no justification to maintain a Theological Seminary here for 8 or 9 students except as a means of finding work for a number of Missionaries.

8. As a matter of retrenchment they began by cutting down the salaries of their Indian Agencies and employees to a figure that has actually reduced them to starvation, while their own emoluments and comforts remain untouched and unaffected to any appreciable extent.

9. They have been closing school after school and they have declined to adopt responsibility for the continuance of the Mangalore Basel Mission High School—the oldest of all the Educational Institutions in the district and now they are trying to see the landed properties owned by the Mission in Mangalore and other places of South Kanara sold to outsiders almost for a song. To give only one or two instances out of many similar ones, we have a landed property in the heart of the town in front of the former Mission Shop (at present occupied for rental by Messrs. King & Co). This is a small plot where a strong foundation has been laid and a well sunk at a cost of well over a thousand rupees. This is offered for sale to a Indian firm of Gujarathies for Rs. 2,500|—without publicly advertising the sale, while Messrs. King & Co. are prepared to buy it for a much higher price even now as per their enclosed letter. There is yet another plot known as "Converts' Home," a name indicative of its purpose and in this compound a large number of Indian Christian subjects of His Majesty are residing as tenants since over 20 years. At one time a rich and influential Roman Catholic gentleman wished to have this at a cost of about Rs. 13,000/—and the God-fearing Missionaries of the time refused to part with it. Now the Missionaries are offering the same for sale for Rs. 5,500/—much less than half of the former value. The method adopted by the Missionaries is not one of even procuring the best value for the properties. If they really are in need of money, there can be no justification for rejecting higher offers and accepting a much lower value.

10. A large sum amounting to several thousands of rupees in the shape of rental due by Non-Christian tenants of the properties owned by the Churches is

allowed to be in arrears and year after year the arrear is mounting up rendering the Church more and more unstable, infirm and invalid. These properties have been hitherto managed by the Missionaries for the Church thro' a General and a Secular Agent and they are mainly responsible for these arrears. The poverty now spoken of is mostly artificial and is only a subtle means to keep down the Indian Church.

11. How the position of the Mission can or will be improved by the sale of these landed properties which are in very many cases purchased out of the contributions raised for the people is not explained and the Indian Christians who are very badly affected by these sales are kept entirely in the dark regarding these matters.

12. The cuttings from the papers and other relevant documents that we are submitting enclosed for favour of Government's perusal will convince the Government the depth of feeling of the Indian Protestant Christians in this matter.

pp. 16-18 infra

13. We are a most law-abiding and loyal set of His Majesty's subjects—as a class are poor—and have had the proud privilege of contributing an appreciable quota from among our fold, in the shape of men for field service during the Great War. We, as a community have kept ourselves in isolation from the surrounding activities that are causing anxiety to Government. As such, we feel, we are entitled at the hands of the Government for a merciful consideration and protective patronage against the aggressive policy now attempted to be adopted and followed by the German Missionaries unmindful of the consequences and effects of that policy on the ill-paid, ill-fed and ill-treated Indian Protestant Christian members of the Churches under their management.

14. In spite of our giving notice to the Chairman, the General Agent and the Secular Agent of the Basel Evangelical Mission to suspend all action in the matter of the contemplated sales of these lands until the Government make necessary enquiries into this question (copy enclosed) we are led to believe, the German Missionaries are determined to have their own way and are in desperate hurry to part with the landed properties in Mangalore and elsewhere for a trifle of a price.

p. 15 infra

15. If the properties are allowed to be sold at the will and pleasure of these German Missionaries, who evidently have no permanent interest in the country, the future of the Indian Protestant Christian Converts, will be very gloomy and pitiable. None of these plots can ever be secured for even ten times the price at which they intend parting with them now.

16. It is necessary therefore that immediate action, in the interests of so many of the loyal and law-abiding poor and poverty-stricken Indian Protestant Christian subjects of His Majesty, is taken and we pray Government may be pleased to take such action as may be found necessary in the matter to prevent the further sale of these landed properties, as they are sure to jeopardise the future interests of the Indian Protestant Christians of this Coast.

We beg to remain,
Sir,
Your most obedient Servants.

TO

The Chairman,

Basel Evangelical Mission

in S. Kanara, Balmatta, Mangalore.

Sir,

We have been reliably informed that the Basel Evangelical Mission authorities in South Kanara are negotiating the sale of various landed properties held by the Mission in trust, for the congregations. It must be clearly understood that these landed properties were either purchased by or given to the Mission for the benefit and the use of the Indian Christian converts from various persons and from monies raised from diverse sources. We are convinced that the intended sales of these landed properties are not in the best interests or to the advantages of the Indian Christians residing in this district. We intend therefore moving immediately the Missions Trust of South India, Government of Madras, and the Government of India on the subject.

2. As urgent action seems necessary, we, on behalf of ourselves and the other Indian Christian members of the Basel Mission Church in Mangalore, who are of like opinion, hereby give you notice to suspend all action regarding the sale of landed property of whatever nature owned by the Mission until the question of the right of the Missionaries to sell these properties are fully thrashed cut and decided by the authorities concerned.

3. If in spite of this you proceed with the sales, you will be doing so at great risk to yourselves and to the prospective purchasers, which please note.

Yours faithfully,

The rumour is afloat that the Missionaries intend selling the Mission Compounds in Kallianpur. In this compound a church built out of the funds of raised from the Christians is located. There are still votaries of the said Church. There is also the buriel ground given by the Government free. Therefore it is not fair to sell this compound so long as there are Christians living here. Should at any time the Christian population should become extinct all this parcelof land should revert to Government and cannot be sold. I write this so that both the sellers and the intending buyers may take note of this.

Extract from Kanteerava, a weekly paper

Dated 30th August 1932.

The Basel Evangelical Mission authorities in South Kanara are contemplating the sales of some of the properties belonging to the Mission. These sales in some cases are very privately arranged and very low offers are accepted while there are others in the field who are prepared to pay much more than what is now being privately offered. The sales are not advertised even in their own papers. If these sales are intended to be effected for relieving the alleged difficult situation confronted by the Mission one fails to understand why such secret negotiations should be entered upon and better offers declined. There are decidedly better offers for the plot in front of King & Co. than the one accepted by the General Agent of the Mission. I find in the columns of 'Rastra Bandu' and 'Swadeshabhimani' that similar attempts are made in the moffusil stations as well. In Kallianpur a plot containing the Christian burial ground is understood to have been offered for sale. Evidently the Missionaries in their anxiety to get money seem to have no respect either for the living or the dead. They have allowed the rental of the Church-owned lands to fall in arrears by thousands of Rupees. An earnest attempt to collect these arrears must relieve the tension, if any. In the meantime the right of the Missionaries to sell these properties is disputed by a section of the Church.

From

The Chairman,
Basel Evangelical Mission in India.

To

The Pastors, Evangelists & Elders
of all the Churches of the B.E.Mission in India.

Dear Brethren,

This year's day of Prayer and Repentance will be observed by the Churches of our Mission on sunday the 18th September. The texts for the sermons of the day will be following:-

Acts 24, 25 for the morning service

a n d

2 Chronicles 16 (whole chapter) for the afternoon service.

2/ In making this announcement I take the opportunity to address a few words to you. We all feel I am sure, more and more the urgent necessity of a new spirit and a new life entering our Churches. Not that there are many unemployed, especially among our young people; not that the times are so bad is our real trouble. Most of us are not what we ought to be: Christians filled with love for the Lord's work, with the spirit of prayer, waiting for their Lord, loving each other, shining as a light in darkness. Within two years we shall, God willing, celebrate the centenary of the Basel Mission in India. Can it be said of our Church that it is a living Church, or must it be said what the Lord said to the Church of Sardis: "I know thy works that though has a name that thou livest, and art dead?" May we all, first of all we His servants, hear the voice of our Lord speaking to us and calling us to repentance, and may the ensuing day of Prayer and Repentance be a day of awakening for our Churches before it is too late!

3/ By this time all of you will have heard that the Director of our Mission will be in our midst shortly. Mr.Hartenstein will stay only for a short visit which he desires should pass off as quietly as possible. Will you please remember this visit in your prayers that our Director may be guided, and bring us a blessi ing.

4/ There has been of late some uneasiness among some members of our Church in view of certain measures which the Mission authorities are compelled to take to effect savings in the budget. May I request you not to listen to unfounded rumours, but to believe us that we have the best interests of the Mission and Churches at our hearts. On behalf of the Mission I thank for every kind of cooperation, but more remains to be done, and I trust that we shall stand by each other and have only one aim in view; the coming of the Kingdom of our God, and the service of of our Lord and Saviour Jesus Christ.

In the service I greet you all,

Yours very sincerely,

A. Munch,

Chairman.

Mangalore, 11th September 1932.

To

The Pastors, Evangelists and Elders of all the Churches of the Basel Evangelical Mission in India.

Dear Brethren,

A copy of a letter dated the 29th August 1932 addressed by the Chairman, Basel Evangelical Mission in India to you is before us. We must thank Mr. Munch for this communication. He has put a very pertinent question to you viz., **"Can it be said of our Church that it is a living Church?"** It is worth while seriously contemplating on this querry. All those that are in Missionary Service and to whom the letter is addressed ought to forget their "stomach" and try to see what Christ their Master would have done under similar circumstances? There is no good of making persons like Mr. J. Frank, an innocent employee of the Mission Press, a Cats-paw by letting him burn his fingers to pull out the nut from the fire for the sake of others. The Chairman of the Mission says that **"there has been of late some uneasiness among some members of our Church in view of certain measures which the Mission authorities are compelled to take, to effect savings in the budget."** He evidently refers to the **contemplated sales of the landed properties** and why do they sell them? Mark well ! friends, the considered statement of the Chairman of the Mission **"to effect savings in the budget"** and of what budget? Necessarily of the present year or of the coming year. Does this not mean they will continue to sell these properties year after year to effect savings in their annual budgets until probably the landed properties no longer exist to balance their budgets. The method of balancing budgets by selling Capital Assets is unheard of. The Missionaries are only birds of passage here. Does the Chairman expect a fat year of harvest in any part of the world in the near future? Doth the conditions prevailing in Germany at present, justify such a hope? We repeat the Chairman's warning **"not to listen to unfounded rumours,"** but to take him at his own statement. The Chairman invites the confidence of the Mission Agents in this strain **"believe us that we have the best interests of Mission and the Church at our hearts"**. We beseach you to believe but not blindly. Believe with reason. Just consider well. Weigh all the **pros** and **cons** dispassionately and think to yourselves, how will the best and lasting interests of the

Mission and the Church, be served, by the sale of the landed properties and many of them for a song. Put the question straight to the Chairman and request him to issue a statement explaining how the contemplated sales are conducive to the lasting interests of the Mission and the Church. Be not beguiled. Christ has warned against Wolves appearing in sheepskin amongst his fold. We all look forward to the Kingdom of our God, which Christ hath said is within ourselves. That is a Kingdom of manliness, of courage, of sincerity, of love and straightforwardness and not of hatred, backbiting, duplicity and hypocrisy. We appeal to you to take the letter of the Chairman very seriously and bestow on it, all the attention and care it deserves, at your hands and see for yourselves if the "**Certain Measures**" referred to by him in veiled expression, are in the best interests of our Mission and Church. If not, let your hearts and souls, your prayers and yearnings be with us in our sustained efforts by all legitimate and Christian means to prevent the sales of these landed properties. If you find us in the wrong and the Chairman in the right do not hesitate to tell us so and please try to convince us of the very great benefit and blessing our Churches are likely to receive and secure by these "**Certain Measures**" that has created "**uneasiness among some members of our Church**". We keep ourselves always open for correction. Let Mr. Hartenstein come quietly or powder and light announce his arrival, we will all join together in wishing well of him within the sacred shores of our land. Let not the Centenary of the Basel Mission in India be celebrated with the Church and the Mission deprived of all immovable Lands.

In the service of humanity,
We are,
Yours very sincerely,

Sir,

The memorial submitted by a section of the Indian Protestant Christians of this district to the Government on 24th September 1932 must have reached by this time. I have been expecting a formal acknowledgment which however I did not get till now. The Memorialists are given to understand that the Inspector of the Basel Evangelical Mission one Mr. Karl Hartesstein, now on a visit to India, together with Rev. A. Munch, Chairman of the Mission intend interviewing you on the subject. On behalf of the Memorialists, I am directed to submit that the representatives of the Memorialists are in a position to substantiate all that they have submitted and are even willing for confronted enquiry before anybody. Any attempt to prejudice the Government behind their back they most respectfully pray may be discouraged.

I beg to remain,

Respectfully seeking permission to write on behalf of the Memorialists I beg to submit that since the submission of that Memorial on the 24th September 1932, to the Government of Madras, by a large educated and independent section of the Indian Protestant Christian Community of this District, protesting against the proposed sale of the landed properties of the Mission and the Churches, one Rev.R.Bunz, one of the pre-war German Missionaries, who has now come back as the General Agent of the Mission and who is mainly responsible for the sale - proposals of the properties, wrote to the Presbytery of the Balmatta Church, a body which consists ~~of~~ wholly of Mission servants with two exceptions, one of whom has refused to participate in these discussions and the other has recorded a disentiate note, requesting them to start a counter agitation in favour of the Missionaries and to send a counter petition supporting them to the Government. He even held out a threat to them to beware of the consequences should they fail to do so.

2. The matter was being discussed by that body for over a month now, without coming to any conclusion one way or the other, all the time being persuaded and induced by the German Missionaries notably the Chairman of the Mission and the aforesaid Mr. Bunz, General Agent to see that a counter petition is sent up any how.

Rev. H. Rauch

3. At last in the meeting held on 20th inst., the Presbyters came to the decision by a majority vote to send up a petition to the Government requesting not to interfere with the discretion of the Missionaries in the matter of the sale

of landed properties for reasons mentioned in their petition which is dated 22nd October 1932. This body I submit on behalf of the Memorialists, was not unanimous but divided even in this opinion of theirs. The Memorialists have directed me to submit that the Presbyters referred to in their petition consist of the servants of the Mission, many of whom do not know English and cannot understand the contents of the petition and this will give a glimpse to Government of the slave mentality of this body. The petition itself is got done by the Missionaries and printed by them. Most of these gentlemen are related to one another and personal interests of a very selfish nature, the safe-guarding of their own stomachs and the desire to please the Missionaries, their masters at any cost, have been the prevailing thoughts that have ruled supreme, than public or church interests.

4. The three Pastors, the immediate servants of the Mission under whose signature, the petition is being sent today are persons closely related to one another and gentlemen who have certainly not the freedom to express themselves against the wishes of their Missionary Masters however wrong they may feel the Missionary attitude to be, in their heart of hearts. They are only puppets whose strings are being pulled from behind by the German Missionaries and at whose mercy they hold their posts. From their present representation, Government will be pleased to see that though these churches are a hundred years old the German Missionaries have still kept these gentlemen in the dark as to the real nature of the church properties and that now, after the Memorialists have moved the Government the Missionaries are arranging to have a <u>preliminary</u> list of the Church properties and these gentlemen without caring to ascertain what constitute the Church properties a list of which according to them is now under preparation, have made the preposterous statement that the income of the Church properties are credited to the Churches, a statement so very carelessly made out of the tutored mind, which will convince the Government of its irresponsible nature. The three

petitioners of today have tried to make a hair splitting difference between the Mission and the Church. p. 29 infra

5. On behalf of the Memorialists I am enclosing a true English translation of the original Gift deed of the vast area of land known as Balmatta by Collector Mr. M. Blair of the Hon'ble the East India Company to the German Mission in Mangalore. The expression "German Mission at Mangalore" is very significant and indicates the object of the gift. It was primarily intended for the use of the native converts. It must be remembered that Basel Mission, of all foreign Missions, as such, has no Home Mission and hence both the expressions "Mission" and "Church" cannot have any separate existence independent of the ~~fil~~ field where the Mission works, viz., India, in the present instance. The difference is merely 'artificial' and not real.

pp. 30-31 infra

6. The three Pastors who have sent today the petition under their signatures have not had the courage to put their petition before the Christians who form the real beneficiaries of the properties as they well know the weight of popular feeling in the matter and are therefore sending it only with their own signatures, who in the present instance are not even able to say they represent an unanimous opinion of their own body. They have not the support of the Christians of the district, excepting their paid agents, is beyond doubt. They speak of "Schism" in their petition without trying to explain how the intended sale of the properties would help unity and prevent 'Schism'.

7. The Presbyteries when they met for a final discussion on the subject on the 20th of this month in spite of the influence of the Missionaries were hopelessly divided and not unanimous. That goes a long way to show the depth of feeling felt by the masses in the matter who enjoy unhampered freedom of thought.

8. The whole question now before the Government, whether ~~the German~~

the German Missionaries have the power to sell these landed properties which are in reality "Trust" properties at their will and pleasure and convert the same into cash for their own ends, without satisfying that such sales are intended for the best interests of the Churches and the Christians forming the votaries thereof and consequently the beneficiaries under the Indian Trust Act. The Memorialists are definitely informed that Dr. K. Hartesstien the Director of Basel Mission now touring in India, to whom the three petitioners have referred in their petition, is opposed to the sale of the landed properties both of the Mission and the Church.

9. It matters little or nothing, we respectfully submit, how a handful of men wholly concerned with their personal interests and afraid of the curtailment of their emoluments at the hands of the Missionary masters and persuaded and threatened by the Missionaries themselves, wish the Government to act in the matter. Memorialists do trust that Government need no advice from these men on the subject. The real issues are before the Government and it is for the Government to examine the situation independent of the wishes of any body, with a view to safeguard the permanent benefits of the beneficiaries.

10. The question is one which involves grave issues that effect the material well being of a large section of His Majesty's most loyal and law abiding subjects of this Coast, not only for the present but for all times to come, and deserves a very sympathetic and dispassionate consideration at the hands of the Government more specially in the light of the past attitude of the German Missionaries when the links of International relationships broke, owing to European Conflagration in 1914 and their subsequent conduct.

11. The Memorialists have put their case before the Government very clearly in the earnest hope that justice will be meted out and necessary safeguards will be imposed

and they are always agreeable for a confronted enquiry and are prepared to substantiate every statement they have made in their memorial to the Government and in this communication.

TO THE GOVERNMENT OF MADRAS
FORT ST. GEORGE, MADRAS

Sir,

We have definite informations to the affect that a memorial, concerning the prospective sale of landed properties belonging to the Basel Evangelical Mission in S. Kanara District by the Mission requesting the Government to intervene and prevent the said sale, has been submitted to you recently by some of the members of the Basel Mission Churches independently of the lawfully constituted Church authorities.

2. We, as elected and rightful representatives of the three Churches in Mangalore, beg to represent as follows:—

The properties referred to in the said memorial, partly belong to the Churches in the District and partly to the Mission although the title deeds of all the properties, both Church and Mission, are registered in the name of the Mission. The income accruing from the properties assigned to the Churches has always been credited to the account of the Churches.

The memorialists above referred to, have made no difference between these two classes of properties and with a view to gain their own ends have alleged in the memorial that the Missionaries are contemplating the sale of all properties pell-mell.

3. But we beg to represent that this is not the case. The General Agent of the Mission has given us an assurance that a preliminary statement of the Church Properties will soon be prepared and supplied to us. Therefore this clearly implies that there is no reason to fear that the sale of such Church Properties is ever contemplated by the Missionaries.

4. We may also add that a commission including the General Agent of the Mission has already been constituted by the District Church Board, the highest official representative body of the District, with a view to prepare a list of the properties belonging to the Churches preparatory to their being legally transferred to the Churches concerned.

5. In this connection we beg to represent that the Basel Mission Churches in South Kanara owe everything, both spiritual and temporal, exclusively to the Basel Mission and the mutual understanding between the Mission and the Churches has always been cordial. For the future well-being of the Churches and the Indian Church members thereof, it is absolutely necessary that this harmony and *entente cordiale* should be maintained without any unhealthy agitation engendering ill-feeling and schism between the two.

6. As the Director of the Basel Mission in India, who is the supreme authority in all questions pertaining to the Mission, has already arrived in India and is expected here early next month all possible efforts will be made both by the Mission and the Church authorities to come to a satisfactory settlement of every question at issue.

7. We therefore beg to represent that any external intervention, even by Government, at this juncture is not only superfluous but also prejudicial to the cordial relationship between the Mission and the Churches which is the *sine quâ non* for the spiritual, material, and social well-being of the Indian Christian members belonging to the Basel Mission in India.

We beg to remain,

Sir,

To,

The Chief Secretary,

THE GOVERNMENT OF MADRAS,

Fort St. George, MADRAS.

Humble memorial of the Indian Protestant Christians belonging to all the Congregations of Basel Mission Churches situated in South Kanara District.

Dated 24th October, 1932.

Most respectfully showeth:-

(1) The undersigned memorialists who are the members of the Basel Mission Churches, of the South Kanara District beg most respectfully to place the following facts for the kind consideration of the benign Government of Madras.

(2) A printed copy purporting to be the memorial submitted by some signatories on behalf of the Indian Protestant Christians of South Kanara District dated 1st September 1932, has fallen into the hands of some of the undersigned memorialists, a perusal of which has satisfied them that it has been got up by a few interested persons who are opposed to the best interests of the Church and the Mission and who for reasons of their own, are seeking to get rid of the German and Swiss Missionaries and along with them the wholesome restraining influence which they are at present exercising on the disorderly and unconstitutional elements in the churches of this district. pp. 3-5 ante

(3) Before entering into the merits of the so called memorial referred to above the present memorialists beg to submit that during the last decade there was an anti-church party called the "Church union" party whose avowed object was to thwart and obstruct all that was being done by the church authorities and the Missionaries in the best interests of the churches, which culminated in a civil suit filed by some of its members against the Balmatha Presbytery praying for injunction against holding the elections for the presbytery. Having failed in their efforts their venom and vindictiveness resulted in the starting of a Kanarese journal called "Satyavrata" as against the long standing Mission journal called "Kraista Hitavadi" in which scandalous and libellous attacks were made in the several issues of the said "Satyavrata" against the Missionaries and the members of the Presbytery. This also culminated in a criminal complaint filed by one of the Presbyters against the Editor and Publisher of "Satyavrata" an active member of the above said "Church Union" party, who, after a protracted trial before the Sub-Divisional Magistrate of Mangalore, was convicted and sentenced to pay a fine of Rupees two hundred (Rs. 200—0—0); and in the appellate Court the said Editor and Publisher tendered an un-conditional apology for the publication of the said libellous articles. pp. 3-5 ante

(4) The utter failure of the efforts of the said "Church Union" party against the church and the Mission and the subsequent cessation of the publication of the said journal "Satyavrata" left a void in the activities of the said party and now their energies seem to have revived for attacking the Missionaries.

(5) It began with an article in the issue dated 5th August 1932 of the local English journal named "Mangalore Herald" in which attacks were made against the Basel Evangelical Missionaries signed by Mr. George Herbert. Kanarese translations of the aforesaid article were also printed and broad-casted. This was followed by a letter dated 20th August 1932 addressed to the Chairman, Basel Evengelical Mission, Balmatha, Mangalore signed by Mr. George Herbert and a few others who were active members of the "Church Union" referred to above protesting against the sale of the landed properties held by the Mission. p 15 ante

This was again followed by the Memorial dated 1st September 1932 to the Government and by a printed letter dated 11th Sept. 1932 addressed to the Pastors, Evangelists and Elders of all the Churches of Basel Evengelical Mission in India signed by Mr. George Herbert and a few members of the "Church Union" party. In the meantime the memorialists wanted to check the course of these continuous vilificati-ons and wanted to prepare a memorial and submit the same to the Government showing that the allegations made by the other party in their memorial dated 1st Sept. 1932 are entirely unfounded and false. Coming to know of this, the very same set consisting of Messrs. George Herbert and company have addressed another printed letter dated 5—10—1932 requesting the members of the Basel Evengelical Mission not to sign the forthcoming memorial.

(6) Though the memorial dated 1st Sept. 1932 purports to have been signed by a large number of persons, it is evident that it is neither a representative nor a constitutional memorial. It is not based upon any resolutions, or proceedings of any public meeting held specifically for the said purpose by the members of the Indian Protestant Christian community of South Kanara. Signatures seem to have been obtained promiscuously and clandestinely by false representations and mis-represent-ations and also by fraudulent representations. Majority of the signatories are in the dark as to the contents of the said memorial. It has not been read over nor interpreted nor its contents made known before signatures were taken on it. There is no guarantee that the signatures are really genuine. There is no attestation of any responsible church or other authorities for the same. The entire "Memorial" seems to be the creation of a few members of the aforesaid "Church Union" party and nothing more.

On the other hand the duly constituted District committee of the Basel Evangelical Mission which contains 50 °/₀ Missionary representatives and 50 °/₀ church representatives who are Indians occupying responsible positions, has in its meeting held on 8th Sept. 1932 has condemned this agitation as deterimental to the Church.

(7) Regarding the merits of the said Memorial, the present memorialists beg to submit that there is confusion throughout regarding the jumbling up of the Church and the Mission properties. The Mission has from the begining made gifts of the properties to the Churches and given power of administration of the same to the Church authorities, the income from which is to be utilised for the Church expenses and for maintaining church schools etc. This is called "Church Properties"; where as the "Mission Properties" are entirely seperate and the income therefrom is to be utilised by the Missionaries for the propaganda work of the Gospel and the payment of salaries to the Missionaries, Pastors, Evangelists, Teachers etc. The church properties are managed by a sub-committee, most of them are Presbyters of the Churches who are all Indians; whereas the Mission properties are managed by the Missionaries. The church proper including the congregation of the Protestant Christians have no voice or control in the management of the Mission properties nor are the Mission properties held by the mission in-trust for the congregations as contended in the memorial dated 1st September 1932.

(8) The missionaries have whenever occasion and necessity arose been from the very begining selling or otherwise alienating the mission properties e. g. the Pension fund property was mortgaged for Rs. 60,000 when the mission felt the need after the war. Similarly the Bathrote property as well as Bela property near Kumbla were sold by the Missionaries.

The missionaries have recently found it necessary to secure more funds for the Evangelistic and School work as the limited amounts from Germany and the in-come they have been deriving locally are not sufficient to meet the present day expenses.

They have been therefore negotiating for the sale of a few mission properties—not the Church Properties—which have deteriorated and whose rental it is difficult to realise and which are as a matter of fact causing loss to the Mission. The Mission have

duly advertised the sale of properties proposed to be sold and there is no secrecy regarding the sale. All the allegations made in the said memorial regarding the sale of the properties and also against the missionaries are false and malicious. The allegations about the "Converts home" are also untrue. There are only four families living in the said compound. It is a well known fact that the prices of landed properties have gone down recently; but the Missionaries have absolutely no motive for rejecting higher offers and accepting lower value for their properties as alleged in the said memorial. They have advertised the sale publicly and have closed with those offers which they thought the best and the highest. Any offer subsequent to the closing of the bargain could not be accepted and cannot be regarded as bonafide.

(9) The entire memorial under the cloak of a protest against the alleged alienation of landed properties, is full of personal and frivolous attacks on the missionaries themselves with a view to prejudice them un-necessarily in the eyes of the Government and of the Churches and also of other Communities.

There is absolutely no justification for the statement in the said Memorial that "the missionaries have come back without a change of heart, to treat us in the fashion they are doing now, determined to dislocate the churches, impoverish their revenues or otherwise render the churches disunited feeble and helpless." There is absolutely nothing to prove this statement. It is a gross libel on the missionaries who have been working at great personal sacrifice and cost for the Indian Protestant Christians.

(10) The further statement in the said memorial that the "large sums of money collected in Germany and abroad and given for the use of the Indian Protestant Christians are mostly spent for the use and benefit of the Missionaries themselves whose number gets swelled almost every quarter," is also false and malicious. A glance into the mission budget will reveal the falsity of this charge. The amounts collected abroad are usefully spent in India for the following purposes:—e.g. The missionaries pay Rs. 10,000 to 12,000 to church fund annually for Schools etc. Apart from this, they spend considerable amount for Hospitals and their other charitable institutions.

The missionaries do not get more than what is alloted for them for their work. Their allowances are nothing compared with what other European missionaries get for their work in other missions. The number of missionaries at present is much less than what it was before the war; inspite of the increase in population of Protestant Christians of the District.

(11) The allegation in the said memorial that "the German Missionaries are extremely extravagant to the great detriment of the Indian Churches and that their own emoluments and comforts remain untouched and un-effected, while the salaries of their Indian agencies and employees have been cut down reducing them to starvation" is entirely false. The retrenchment has effected a cut in the emoluments of the missionaries also to the extent of 15% while the cut in the salaries of the Indian Agencies and employees is only 5% and 10% and in certain grades no cut at all has been enforced. The maintenance of the Theological Seminary quoted as an instance of the extravagance of German Missionaries cannot be regarded as such because practically only two teachers are paid for such purpose; while the remaining teachers are not paid anything for the purpose; but are ex-officio teachers getting their pay from other funds for which they have to work in other ways. The said Theological Seminary is an old institution more than 80 years standing in which large number of students were receiving instructions in pre war days but during the war it had to be closed and was reopened about 5 years ago. The number of pupils receiving training in it depends upon the needs of the field, and the number is liable to fluctuation at any moment. The Union Mission Seminary at Thumkur is admittedly a useful institution but is of a lower grade than the Basel Mission Seminary and does not provide for all

the needs of the field. Before reopening the present Seminary the then Chairman of the mission had paid a visit to the Thumkur institution and had satisfied himself as to the necessity of restarting the local Theological Seminary. The step was taken only after mature consideration. The Thumkur Seminary belongs to the Union Mission where as the local Seminary is the only one for the whole Basel Mission field in India, the cost of which does not amount to more than about Rs. 4000 per annum which is less than 1/3 of the amount of Rs. 13,000 specified in the memorial.

(12) It is true that on account of financial difficulty and economic distress it was found necessary to hand over the management of a few inefficient Schools to the respective staffs while continuing to pay the said institutions a certain sum per annum. Even the Mangalore Basel Evangelical Mission High School continues to work on the above principle. The closure of the said school would not also adversely effect anyone in view of the fact that there is an efficient Mission High School in Udipi, working successfully and there are many popular High Schools here in Mangalore.

(13) The memorial further attempts to take the Missionaries to task for improper management of the Church properties; but the Missionaries cannot be held responsible for the management of the Church properties which are entirely managed by Indian managers who are empowered to file necessary suits against defaulting tenants.

16-18 ante (14) The cutting from papers etc. submitted as enclosures to the said memorial are only the result of the correspondence of the antichurch party called the "Church Union" party headed by Mr. George Herbert and cannot in any way be said to show the depth of feelings of the Indian Protestant Christians in the matter. Excepting a few followers of the said "Church Union" party who make such a fuss in print against the Missionaries; the entire Indian Protestant Christian community is quite friendly with the missionaries and is grateful to them for their self-sacrificing work on behalf of the Indian Christian community.

(15) The said "Church Union" party members have personal grievances against the missionaries, e. g. Mr. George Herbert who takes credit for writing and drafting articles for news papers and who invites all the correspondence in matters against the missionaries was once a clerk of the Basel Mission Weaving Establishment, Mangalore, and on account of his criminal mis-appropriation and breach of trust in respect of large amounts, was prosecuted by the missionaries and covicted and sentenced to a long term of imprisonment which was confirmed in appeal and who having invested the misappropriated amounts over a house and compound in the name of his wife, evaded his civil liabilities to the mission by becoming an adjudged and undischarged insolvent. His grievances against the Mission are therefore longstanding and it is no wonder that he is the moving spirit of this unhealthy agitation, who indulges in scandalous, libellous and vindictive attacks on missionaries.

The said party are openly giving out that they would see and try every means to make the Missionaries pack and go back for ever from these parts.

3-5 ante The memorialists therefore pray that no weight may be attached to the said memorial dated 1—9—'32 and if any action is deemed necessary an enquiry may be ordered to be held by responsible authorities to see how far the allegations in the said memorial are true and what exactly are the reasons for the said "Church Union" party for making such libellous attacks on the missionaries.

The memorialists further pray that any correspondence relating to this memorial may be kindly addressed to—

S. A. Stevens,
ROSE VILLA,
Codialbail, MANGALORE.

7/11 Memo to Mr. S.A. Stevens, No. 30557-2, Pol (Misc), of 12-11-1932. page 61 cf.

7 X 64

Please see the notes at pages 1-2 ante. The Govt. of India have since written to say that the Basel Mission should be advised to take legal opinion themselves as to their right to dispose, by sale or otherwise, of any of the items of property conveyed to them by the deed of transfer executed by the Mission Trust of Southern India - see the letter at page 112 cf. in linked file II. It is proposed to communicate this to the Chairman of the Mission Trust - see the draft letter put up in that case. ~~The Chairman will doubtless report to us further developments in the matter. There may be awaited. No action seems possible in this file at this stage.~~
